6	13
9	18
12	24
16	32
20	40
25	50
30	60
36	72

NOTE: When looking at a sizing chart, you will not normally need to cater for all guests, as it is unlikely that everyone will want cake.

We typically suggest sizing your cake to cater for around 75% of your guests, however, this is ultimately your decision.

Servings are estimated and will often vary on how the cake is cut. They may vary from the above figures, depending on how the cake is cut, it may provide either more or less portions than specified.
